Thomas Edward Levy, M.D.

Re: License Number: DR-30761
Case Number: 2021-7592 - Panel A

Dear Dr. Levy,

The Colorado Medical Board has concluded its inquiry into the aforementioned matter. It was the Panel's decision not to commence with formal proceedings against your professional license. However, the Panel did determine disciplinary action in the form of this letter of admonition is warranted.

As you know, you wrote the book *Rapid Virus Recovery*, which as you note has been available since at least "the early part of 2021." In it, you claim primarily that hydrogen peroxide nebulization can not only treat COVID-19 as well as all respiratory viruses but "offers a prompt and definitive cure in nearly everyone." As for vaccinations against COVID-19, "before deciding on whether to take a vaccination"—a vaccination you described as "admittedly experimental"—you posed a question to your readers: "Why is a vaccine necessary when the targeted infection or toxin can simply be prevented, or if contracted, easily cured?" Your book includes a disclaimer that you do not intend this book to be used for diagnostic or treatment purposes, but in holding yourself out as a physician who can treat, prevent, or cure conditions including COVID-19, and in suggesting and recommending treatments for COVID-19, you are engaged in the practice of medicine.

After consideration of the information in this case, the Panel finds that you committed unprofessional conduct, in violation of section 12-240-121(1)(j), of the Colorado Revised Statutes. Specifically, you recommended treatments that lack demonstrated clinical efficacy against COVID-19 when other established and proven treatment modalities exist, and you cautioned against vaccinations. By this, you failed to meet generally accepted standards of medical practice.

By this letter, the Board takes the formal disciplinary action of admonishing you for the conduct specified above and warns you that repetition of such practice may lead to imposition of more severe disciplinary action. This letter is an open public record and a reportable action to individuals or entities requesting disciplinary information. The Board strongly encourages you to review and understand the Medical Practice Act requirements and obligations for the practice of medicine in Colorado.

In accordance with 12-20-404(4)(b), the Board advises you that you have the right to make a written request that the Board initiate formal disciplinary proceedings in order to adjudicate the conduct or acts upon which this letter is based. You must make your written request within twenty (20) days after receipt of this letter and address your request to Paula E. Martinez, Program Director, at the email address listed below. If you make a timely request, the Board will deem this letter of admonition vacated and may proceed with disciplinary and/or injunctive proceedings in accordance with 12-20-404(4)(b)(II), C.R.S., and applicable rules.

A Letter of Admonition, when accepted, becomes a permanent, public portion of your record. It is not, however, a restriction on your practice as a professional physician.
